The use of this table.

YOu may by this table find out, first the day when the moon changeth throughout the yeare; and secondly all the feastivall dayes depending upon the same, which we call moveable feasts.

Example: Seeke the change of the moon in February, and note, that the next tuesday after that change is Shrove-tuesday: but if the change fall upon tuesday, wednesday, thursday, friday, or saturday, then the next sunday to that saturday is Shrove-sunday, and the tuesday following is Shrove-tuesday, the sixth sunday after is Easter day, 35 dayes after is Rogation-sunday, 4 dayes after is Ascension day, 10 dayes after is Whit-sunday, 7 dayes after is Trinitie-sunday, and 4 dayes after is Corpus Christi day: and thus by this rule you may know, until the end of the yeare 1649 all the moveable feasts in the severall yeares.
